

Amendment Under 37 C.F.R. § 1.312
U.S. Patent Appln. S.N.: 10/801,638
SUGHRUE MION, PLLC Ref: Q80393

REMARKS

Applicants have amended claim 3 to correct a typographical error. It is noted that in Applicant's last Amendment, dated November 23, 2004, Applicants, argued at page 5, last paragraph, that:

The selection of a scanning mode among the set of the scanning mode is changed at intervals of a subfield or a subfield group (recited in claim 1, and typically showing Figs. 7 and 12) or at intervals of a field or a field group (as recited in claim 3, and typically shown in Fig. 13).

Emphasis Added. Applicant has amended claim 3 to be consistent with these remarks.

The changes being made are simply editorial in nature and no question of new matter or questions of further search arise.

Entry and consideration of this Amendment are respectfully requested.

Respectfully submitted,
